## Projects

**ImagiGen — Text-to-Image Generation Web Application (SaaS Application)** Nov 2025 – Dec 2025

- Built a full-stack web application using AI-based APIs for text-to-image generation.
- Implemented secure user authentication and controlled access to application features.
- Integrated REST APIs to enable smooth frontend-backend communication and workflows.

**Customer Relationship Management (CRM) System — Mini Project** Jan 2026

- Implemented a CRM system to manage customer leads, contacts, and sales opportunities.
- Tracked leads across different sales pipeline stages and maintained interaction history.
- Generated basic reports and dashboards to monitor lead status and sales progress.

## Leadership & Practical Experience

**Founder — Online Solution Tours & Travels** Kolkata | 2019–2021

- Founded and independently managed a service-oriented business during higher secondary education.
- Worked directly with customers to understand requirements and recommend suitable solutions.
- Managed complete inquiry lifecycle including pricing discussions, confirmations, and follow-ups.
- Coordinated with service providers to ensure timely and accurate delivery of services.
- Gained hands-on experience in negotiation, accountability, decision-making, and client trust building.

**Computer Science Instructor — UrbanPro** Jun 2023 – Present

- Delivered clear and simplified explanations of computer science concepts to non-technical learners.
- Identified learner gaps and adapted teaching approaches accordingly.
- Improved learner confidence through structured problem breakdown and guided practice.
- Strengthened professional communication, active listening, and stakeholder engagement skills.

## Certifications

Data Analytics with Python — CampusX (2025)
